- 1. Original objectives:** To construct drinking water storage tanks, lay pipes and install water taps.
- 2. Has the objective been achieved?** Yes. See attached photographs in the following pages.
- 3. Where is the project site:** Anpu village is located at Majhathana village development committee VDC Kaski District, is in West Nepal, and is about 20kms North East from Pokhara, the tourism city and takes about two hour drive from the city centre.
- 4. Rotarians trip to Anpu:** A group of Rotarians lead by Rtn Major Bhim Bahadur GURUNG who is also club Community service Director and local coordinator made two trips to Anpu village. Initially to hand over money and in last June to hand over completed project to the villagers. Both trips started from Kathmandu and each trip lasted good 7 hours. The locals made the Rtns most welcome in both visits.
- 5. Beneficiary:** The 20 households with 125 residents are the primary beneficiaries.
- 6. Community Impact:** The local community are extremely happy with the drinking water on their door steps. They are most grateful to Eifion Trust for their generosity, for without support from the Trust, the women folklore in the village would have been making many hours of water collection trips every day.

10. On behalf of RC The Himalayan Gurkhas, I would like to express my sincere gratitude to EIFION TRUST for their continued generosity. My report will not be complete without paying my respect to Barry Evans, for without his initiative and continued support, the project wouldn't have been successful.

11. Thank you and look forward to working with you in future.
